

ClogFREE Magnetic Universal PopUp Drain Stopper eliminates the trapping of hair and build-up of clogs in bathroom lavatories.

- **Universal** – Retrofits in most standard ball rod pop up drains
- **Eliminates Hair Buildup** – Eliminates ball rod from the flow path
- **Drop in Design** – No Disassembly to Remove Stopper
- **Threaded Cap** – Easy to replace Upgrade Finishes
- **Easy**, No Tools Install in Existing or New Pop-Up Drains

*Replaces Most Standard PopUp Stoppers

Simply grab and pull

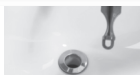

INSTRUCTIONS

1

Disconnect linkage, loosen the ball rod nut and discard the existing ball rod. Save the existing nut and ball rod gasket.

Remove and discard the existing pop up stopper.

2

3

Replace existing ball rod gasket or choose one of the included gaskets that best fits the port. Missing or damaged gasket can cause leak. Install new ball rod and tighten nut.

Orient the ClogFREE Pop-Up Stopper ridges (magnet behind) towards the pointed end of ball rod.

4

5

Insert the ClogFREE PopUp Stopper and push it until it seats on the bottom of the sink.

The ball rod should protrude into the drain just enough to touch the magnet in the stopper. Adjust length by rotating the rod.

6

If stopper is tight to insert, trim or file the four stopper wings uniformly
